Talking Points:

- Exceptional experience - we've formed thousands of companies
- Your company will be set up correctly the first time saving you money and time on fixing costly mistakes
- Help making the best decisions for your company
- Protection for your business so all your hard work, time, energy, and money is worthwhile
- Forming an LLC makes it clear that you are a business owner rather than just working for another company
- An S-Corp allows you to shield a portion of your income from self-employment taxes
- Entities provide you legal protection by establishing the corporate veil. If someone sues you for liability, you only stand to lose your business. If you don't have an entity they could take your home, cars and personal bank accounts
- If your business was sued today, your current and future personal assets may be vulnerable for up to 22 years if you don't have an LLC
