

IUL

(Indexed Universal Life)

Indexed Universal Life or IUL is one type of permanent life insurance, meaning that you're assured a pay out upon death, should the policy remain current. An IUL can also accrue a cash value that allows you to utilize smart banking strategies.

"I cannot say enough about the IUL and how it has helped bring increased financial freedom and options to my family. The IUL is not only restoring our retirement savings that we lost as small business owners during the Great Recession, but also helping our children with the major purchases of their lives like college, a home, and their own retirement. If you are looking for financial strategies for yourself, your business, or your family, you need to hear about this incredible financial product." - Shuree H.

Features:

- Permanent life insurance
- Accrue a cash value you can borrow against
- Tax-deferred growth or your policies cash value
- Can contribute to a tax-free retirement plan
